RE: Complaint # 21 MED 509

Dear Mr. Schara:

This letter is to inform you of the results of the complaint filed by you against Gavin Shokar.

The details of the complaint were reviewed and evaluated by a screening panel made up of members of the regulatory authority for the profession and/or a department attorney. Based on the review and evaluation of the complaint and other materials, a decision has been made that the information presented does not warrant further investigation.

The process of evaluating complaints is often difficult and complex, involving legal issues and professional or technical evaluation. While it may be disappointing to learn a decision has been made that your complaint will not be pursued further, we want to assure you that the decision was made only after serious consideration of the issues you raised. Your complaint will be retained on file for future reference.

Thank you for calling this matter to our attention. Information from the public is critical to the Department if we are to be made aware of potential violations of the law and the possible need for enforcement action.

We appreciate your patience as we considered this matter.

Sincerely,

Complaint Intake Unit  
Dept. of Safety and Professional Services  
Division of Legal Services and Compliance

**Unbelievable. The doctor who ordered the lethal dosage of meds, and issued the DNR order, did nothing wrong! This decision is the result of the government investigating those who are doing their bidding!**
