

Are We Being Played?

The spiritual dialectic is a fight for souls

Exposing the evil villain's dark side – The Great Reset dialectics set up the Great Awakening

- The population is coming to grips with current evil and what's coming
- "Died Suddenly"
- Dr. Ardis research
- Hospital killings
- The banality of evil
- Even Tucker Carlson brought child trafficking to the surface

Ushers in the light side from the same villain – The Great Awakening preys on the recurring idol

- Why? Desire for safety and security, the recurring idol
- No repentance shows the patriot movement isn't from God – our sinful nature wants to judge the actions of the players as good/bad; God cares about the heart
- QAnon – shows our propensity to look for someone to save us versus standing on truth (how can you believe in someone who hasn't renounced the jab?)
- 'Light' is the common theme – God says Satan will masquerade as an angel of light

How is this possible? Get our attention on distractions (man-made dialectics prey on our sinful nature)

- Election fraud
- Ukraine war
- Financial system collapse
- Economic collapse
- Covid and what's next
- Taking away our constitutional rights

Our responsibility is to God – don't participate in the world

- Speak truth to power – call out evil
- Share the Gospel
- Disobey lies; test everything against Scripture
- Pray
- Don't fall trap to modern church teaching regarding Romans 13 and 14
- Redeem the time, for the days are evil

God's way is outside of the programmed choices Satan has us believing:
