

# FAITH & FREEDOM

**SCOTT SCHARA**

## A **BROKEN** Medical System

**KIMBERLY OVERTON**

Scott Schara is working tirelessly to bring his daughter's story to every corner of the country! Seven days before his daughter died, the hospital admitted Grace with Covid, but her father believes the lethal combination of increasing doses of drugs killed her, not the disease. Many medical professionals he has consulted agree. Grace's love for people and for Jesus her Savior, compels her family to warn us of the dangers of medical protocols and the importance of knowing the one who holds our future.

Kimberly Overton has worked in the healthcare industry for over 25 years, serving in both clinical and administrative roles. In July of 2021 she formed **Nurse Freedom Network** to offer both nurses and patients **FREEDOM** from the oppressive nature of our existing, broken healthcare system. Kimberly is growing a network of healthcare workers, highlighting "outside of the system" career choices that gives them the opportunity to break away from the broken and oppressive "Sickcare" system, and empower them to cultivate an environment which allows for both themselves and their patients to **THRIVE!**
