Come to hear Scott and Cindy Schara speak about how and why their daughter Grace died. There will be a question and answer session afterward.

## Read Grace's story

Grace Schara, a beautiful 19 year old young girl with Down Syndrome, died on October 13, 2021 at a COVID hospital – a hospital following the government treatment protocols that continue to fail at preventing COVID deaths.

Many hospitals are committed to following what the government dictates, and receive financial benefits by doing so. Grace's case highlights many abuses, along with the dangers of financial temptation.

This is a tragic story that can help wake us up to what's happening in many hospitals today and turn us to the only One who can truly fix this mess.
